

Distribution Plan

- Use the network, facilities and resources of the statewide Vaccines For Children program
- Mobilize a heightened flu vaccination effort to help test efficiency of the structure and guard against flu complications
- Limited supply = priority distribution
- Free injections covered by U.S. government
- No mandate
- Subject to revision

Limited supply = priority distribution

- 1) Healthcare workers
- 2) Other high-priority residents and workers
 - Nursing, skilled nursing, assisted living and independent living residents
 - High-risk individuals (ex. cancer, kidney or heart disease, COPD, sickle cell, diabetes, obesity, immune-compromised)
 - Essential workforce determined by region (ex. first responders, teachers, food processors, correctional staff)
 - Vulnerable and congregate living (ex. minority communities, disabled, homeless, incarcerated, college students)
