Senator Bolz issued the following statement in advance of the LB563 hearing in the Education Committee today:

“The Access College Early Tech Promise Act will give Nebraska high school students a jump start on college classes toward Career and Technical Education. The scholarships provided in LB563 will help students access these programs and provide valuable foundation for future career success.

With February being Career and Technical Education month, there’s no better time for our state to give these students the tools to excel in these high demand fields, and help solve our state’s ongoing workforce shortages.”
