

Senator Mike Gloor  
**Multi-payer PCMH Stakeholder group**  
Monday, February 29, 2016, 2:00 to 4:00 p.m.  
Nebraska Association of County Officials Bldg, Lincoln, NE

In attendance:

Senator Mike Gloor	Kevin Nohner, Uninet
Margaret Buck, Legislative Aide	Bob Rauner, NAFP
Charlene Dorcy, NAND	Will Molitor, Arbor Health Plan
Dr. Matha Arun, Aetna Better Health	Ann Adler, Arbor Health Plan
Jon Copley, Aetna Better Health	Brad Hove, BCBS
Jamie Bruce, Aetna Better Health	Jina Ragland, NMA
Dr. Carol LaCroix, Aetna Better Health	Elizabeth Hurtz, NHA
Amy Behnke, HCAN	Dr. Deb Esser, BCBS
Pat Ganyo, Bryan Health	J.P. Sabby, DOI
Scott Jansen, Complete Children's Health	Jon Copley, Aetna
Dave Palm, UNMC College of Public Health	Senator Mark Kolterman
Margaret Brockman, Office of Rural Health	Dr. Tony Sun, UHC
Heather Leschinsky, Nebraska Medicaid	Corinna Suiter, BCBS
Gail Bronham, BCBS	Laura Peterson
Sarah Hotovey	Pat Lopez, Public Health Association
Mike Horn, UHC	Justine O'Neill, Enhance Health Network

**A. Welcome**

The anti-trust statement was read and introductions were made.

**B. Annual Reporting from participants**

Dr. Arun Matha, Aetna Better Health reported on Dec 31, 2015 - 6 contracts, 42 clinics, 250+ providers, 16,740 Medicaid members. All had met specific quality measures.

Will Molitor, Arbor Health, reported 4 sites working as a PCMH under Medicaid Tier I/II standards and with six additional sites that are interested in becoming NCQA certified. The Community Action Partnership of Western Nebraska is an FQHC renewing NCQA certification as a Level 3 Medical Home.

Dr. Deb Esser, BCBS, reported they began PCMH in 2011 with 10 clinics and 78 physicians at the end of 2015 they had 92 clinics, 475 physicians, 112,354 patients in PCMH or value based contract with an SERPA ACO for an additional 15 clinics and 20,000 patients. In 2016 they are starting new ACO contracts with 4 large physician groups and will be contracting PCMH with many Western NE clinics. She noted reductions in readmissions, fewer ER and higher generic prescription rates and improvements in quality projects in diabetes and blood pressure control.

Dr. Tony Sun, UHC reported 20 clinics in beginning, mirrored much of our value based contracts with over 300 sites, 13 + hospitals in a value based contracts. VB and ACO platform are a way to work with various provider types to engage them in value based efforts. In line to have ACO in place with 2 health care systems.

Kevin Nohner, Uninet Omaha, stated that practice transformation is like turning the Titanic but CHI is dedicating effort to transform their clinics. Uninet ACO moved to the risk product, track 3 this year.

Bob Rauner reported there are now 5 Medicare shared saving ACO programs: 3 in Omaha – Alegent, MIPPA, THINK Primary Care; out state – SERPA, TPN – Nebraska City, Lincoln, Grand Island, Kearney and Crete, all level 3 PCMH. Lincoln has system agnostic role with a cross system project on cancer screenings, Lincoln TPN, Peoples Health Clinic and Bryan Health.

### **C. Presentation of 2016 PCMH Participation Agreement**

Completed signed agreements were distributed. Senator Gloor explained that the physician directed language remains in the agreement and it is a one year agreement.

Dr. Bob Rauner stated that CMS is finally making a common set of outcomes measures and that the stakeholder group needs to work more with Medicaid to restructure the pediatric and prenatal measures. Heather Leschinsky, NE Medicaid stated that they haven't chosen particular health outcomes measures. For the first year, the outcome measured will be more operational measures because there will be new MCOs in the state. Right now the MC contract doesn't require measures specific to PCMH but hopefully the quality committee will flesh out those common measures aligned with PCMH measures. Medicaid is currently developing recommendations for the membership of the committee, as well as the administrative simplification committee.

### **D. Legislative Update**

Senator Gloor, LB 333, was introduced to create an advisory council and “home” for PCMH in NDHHS. Senator Campbell introduced a similar bill but with a long range planning view, LB 549. The two bills have been amended together and has a speaker priority.

### **E. Information Sharing**

Margaret Buck highlighted the items in the meeting packet:  
MACRA Conference in LaVista March 30<sup>th</sup> by NAFP  
CMS overview and comment guidelines for MACRA rules  
Article: Minnesota Health Care Homes save \$1B over 5 years  
Information regarding the restructuring of NCQA recognition process for PCMH

Dr. Rauner mentioned that the American Board of Medical Specialties physician accreditation and certifications are being restructured to align with quality/value based outcomes.

Margaret Brockman announced that the Office of Rural Health is planning a conference in western Nebraska to provide education on PCMH, value based practice and MACRA. More information will be available in the near future.

**F. Governor Pete Ricketts Remarks**

Governor Ricketts joined the meeting to learn about the stakeholder groups progress. He signed the Agreement. His thoughts on a “home” for PCMH - he would take the recommendations of the stakeholder group. Eric Mauder accompanied Governor Ricketts.

Aetna Better Health® of Nebraska  
15950 West Dodge Road  
Omaha, NE 68118

Date: February 23, 2016

To: Multi-Payer Patient-Centered Medical Home Stakeholder Group

From: *Dec* Jonathan E. Copley, Esq., CEO, Aetna Better Health of Nebraska

Re: Payer Progress Report

### **Successes Realized**

Collectively, Aetna Better Health of Nebraska contracted Patient-Centered Medical Home clinics have demonstrated improvements in targeted metrics, including:

- ED Utilization
- IP Admissions
- Breast Cancer Screening
- Colorectal Screening
- Well Child Exams
- Adolescent Exams
- Prenatal visits
- Postpartum visits

### **Total Contracts**

As of December 31, 2015, Aetna Better Health of Nebraska has executed six (6) Patient-Centered Medical Home contracts, comprising forty-two (42) clinics, more than two hundred fifty (250) individual providers and covering sixteen thousand seven hundred forty (16,740) Medicaid members.

## Patient Centered Medical Home

Arbor Health Plan Practice Transformation Program - January 2016

Presented by:  
Will Molitor, MPH, Quality Performance Specialist  
Stephen Lazaritz, MD, Arbor Medical Director

### Arbor Health PCMH Project Development

- Established criteria are used to evaluate potential sites for PCMH recognition:
  - Nebraska Medicaid Tier I/II standards
  - National Committee on Quality Assurance (NCQA)
- Participation in the PCMH program is voluntary, but highly encouraged
- Arbor Health staff evaluates documents submitted to ensure compliance with the appropriate standards

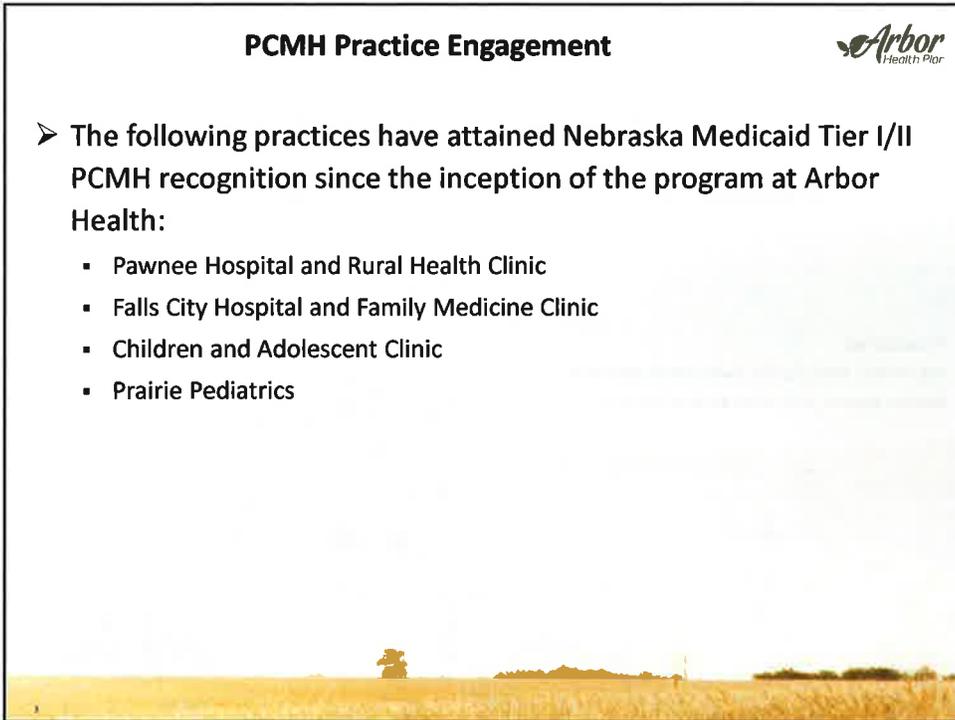

### PCMH Practice Engagement

➤ The following practices have attained Nebraska Medicaid Tier I/II PCMH recognition since the inception of the program at Arbor Health:

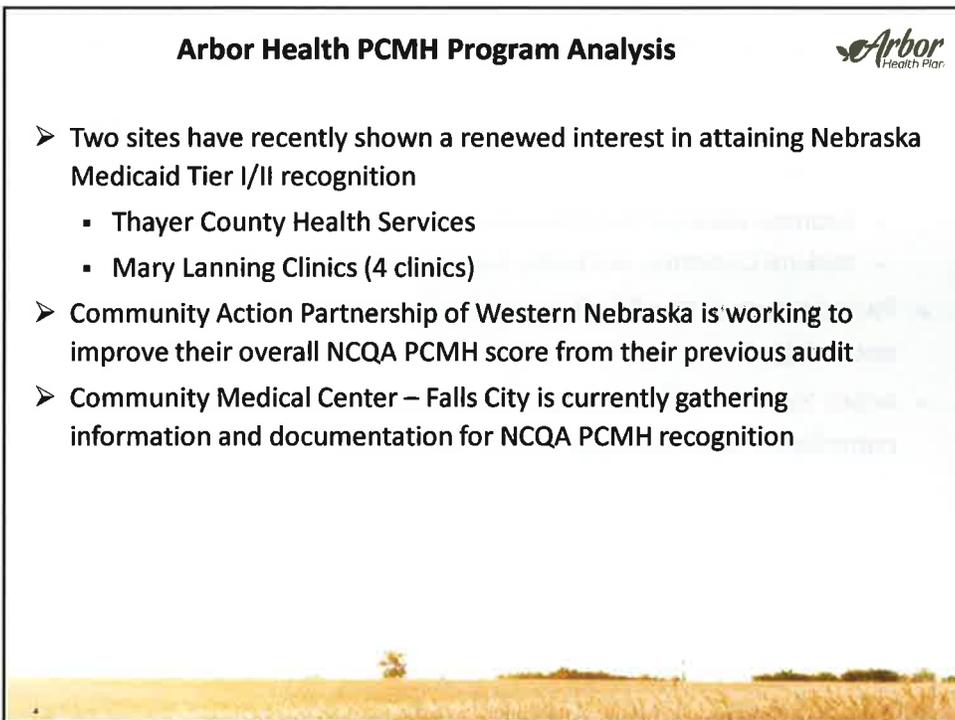

- Pawnee Hospital and Rural Health Clinic
- Falls City Hospital and Family Medicine Clinic
- Children and Adolescent Clinic
- Prairie Pediatrics

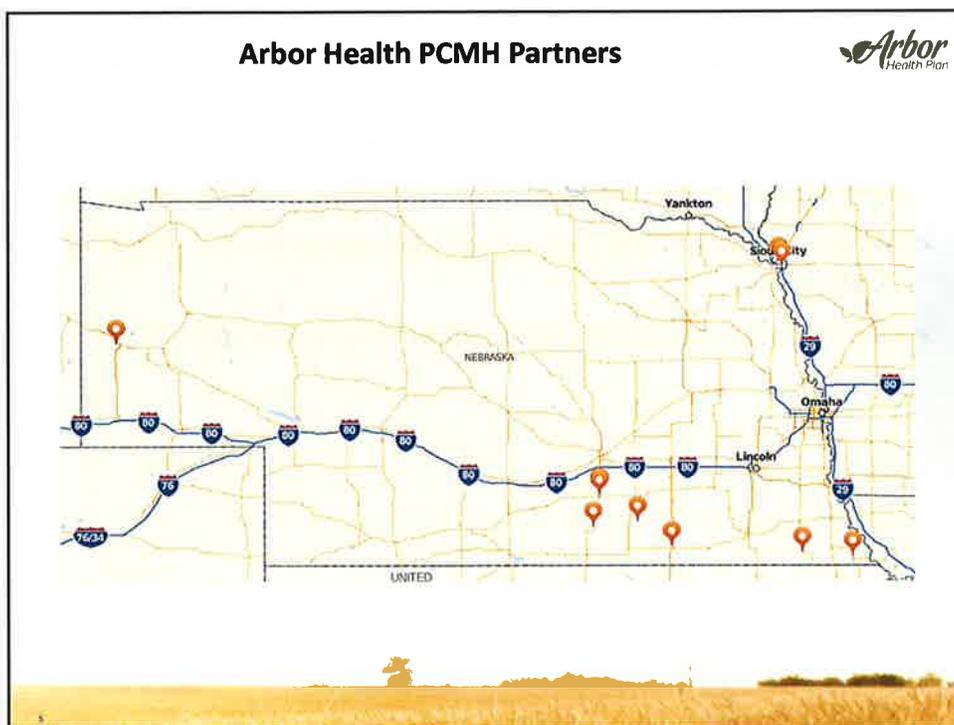

### Arbor Health PCMH Program Analysis

- Two sites have recently shown a renewed interest in attaining Nebraska Medicaid Tier I/II recognition
  - Thayer County Health Services
  - Mary Lanning Clinics (4 clinics)
- Community Action Partnership of Western Nebraska is working to improve their overall NCQA PCMH score from their previous audit
- Community Medical Center – Falls City is currently gathering information and documentation for NCQA PCMH recognition

**Arbor Health NCQA PCMH Experts**

- Arbor Health has two NCQA PCMH Certified Content Experts CCE available to work with any provider practice who is interested in NCQA recognition for PCMH
  - Arbor Health's Medical Director is a NCQA PCMH Certified Content Expert
- Current collaborating practices:
  - Community Action Partnership of Western Nebraska (CAPWN)
  - People's Health Center (Lincoln, NE)
  - Family Medicine Clinic (Falls City, NE)

6

## Blue Cross Blue Shield of Nebraska Patient Centered Medical Home 2015

BCBS of Nebraska started our Patient Centered Medical Home (PCMH) process in 2011 with 78 physicians in 10 clinics and 1243 members associated with these PCMHs. We ended the year 2015 with 475 physicians in 92 clinics and 112,354 patients attributed to those PCMH. Adding Accountable Care Organizations who have Value Based contracts with BCBSNE we have an additional 15 SERPA clinics with 20,355 members and an additional 21 clinics at Nebraska Medicine with approximately 4000 additional members, making the total patient membership close to 136,709 members in some form of patient centered contracting arrangement.

Over the years the PCMH program has grown from a pay for performance program to a true PCMH. The clinics achieve standards based on Blue Distinction Total Care (BDTC) criteria for PCMH that are similar to the Nebraska Medicaid pilot for PCMH standards. The clinics must concentrate in quality, access and care coordination across the continuum.

In 2014 BCBS of Nebraska began to use Treo (3M) as a reporting tool for our PCMH. This tool gives the PCMH the ability to view their attributed members, see who has been hospitalized and where, see who has been in the emergency room and the diagnosis. Please see table 2 for a list of these reports. These tools assist the physician and care coordinator in reaching out to their members for education on a variety of topics. Each PCMH is required to have a case manager or care coordinator who reaches out to patients for education and coordination of their care.

The Treo tool also gives a Value Index Score (VIS) for each provider and clinic. The tool gives a score on primary and secondary prevention, tertiary prevention, continuity of care, Chronic and follow-up care, population health status and efficiency. Please see Table 1. BCBS of Nebraska has seen as the VIS score increases the total cost of care delivered decreases. This is true because there are fewer patients readmitted to the hospital, fewer patients going to the emergency department and an increase in generic prescription rates.

As we move forward into 2016 there will be a decrease in the numbers in the PCMH program as many offices will graduate to Value Based Contract (VBC) agreements, eventually taking on risk. BCBS of Nebraska will have at least three ACO agreements in VBC in 2016 and perhaps as many as six in the near future. Using the care coordination skills learned in the PCMH setting the ACOs will begin to manage the population health of their membership.

For 2016 we will be targeting new clinics who may be ready to begin the PCMH journey, especially those in western and west-central Nebraska. We are beginning to see improvements in the health outcomes for patients associated with patient centered medical homes. Our PCMH groups tend to have higher VIS scores than offices who are not a PCMH. Disease prevention is higher in PCMH offices and the population health report tells us patients involved in a PCMH are maintaining their health better than patients who are not attributed to a PCMH. We will continue to follow these results and others over the next several years.

Table 1: Value Index Score Domains

DOMAINS	OUTCOMES
<b>PRIMARY AND SECONDARY PREVENTION</b>	Measures performance of providers educating, immunizing, and screening to prevent disease.
<b>TERTIARY PREVENTION</b>	Measures performance of providers preventing further deterioration of a patient’s health who is already chronically ill.
<b>CONTINUITY OF CARE</b>	Measures how well providers engage and manage patients in the health care system. Correlated with lower rates of hospitalizations and higher patient satisfaction.
<b>CHRONIC AND FOLLOW-UP CARE</b>	Measures care guidance for chronic population and management of hospitalized patients after discharge.
<b>POPULATION HEALTH STATUS</b>	An indicator of whether the entire member population becomes healthier, maintains, or becomes sicker.
<b>EFFICIENCY</b>	Efficient use of pharmaceutical and ancillary resources.
<b>Source:</b> Treo Solutions-3M Health Information Systems’ Value Index Score.
