Sentencing Trends

Felony Sentencing

- Determinate
 - A sentence with one number, which is the set amount of time after which the person is released to post-release supervision
- Indeterminate
 - A sentence with two numbers, a **maximum** and a **minimum**; A person is eligible for parole after serving their minimum and must be released after serving their maximum
- Mandatory minimum sentences
- Consecutive sentences

Indeterminate Sentences

Offense Class	Sentence Range	Post-Release Supervision Minimum and Maximum
Felony I	Death	None
Felony IA	Life	None
Felony IB	20 years – Life	None
Felony IC	5 years (mandatory)* – 50 years	None
Felony ID	3 years (mandatory)* – 50 years	None
Felony II	1 year – 50 years	None
Felony IIA	No minimum – 20 years	None

Determinate Sentences

Offense Class	Sentence Range	Post-Release Supervision Minimum and Maximum
Felony III	No minimum (determinate sentence) – 4 years and/or \$25k fine	9 Months – 2 Years
Felony IIIA	No minimum (determinate sentence) – 3 years and/or \$10k fine	9 Months – 18 Months
Felony IV	No minimum (determinate sentence) – 2 years and/or \$10k fine	No Minimum – 12 Months

Note: Sentence ranges apply to all convictions from 8/30/15 onward

*Commercial Drug Offenses include: manufacture, distribute, deliver, dispense, or possess with the intent to do any of those things

Pre-COVID, Minimum Sentence Length Was Up 25%

Median Length of Minimum Sentence, 2011 - 2020

Maximum Sentence Length is Down

Median Length of Maximum Sentences, 2011 - 2020

Proportion of Maximum Sentences Longer Than 5 Years Has Increased

Possession of a Controlled Substance (Except Marijuana)	N/A	18
Possession with Intent to Deliver or Distribute	30	48
Terroristic Threats	N/A	24
Possession of a Deadly Weapon by a Prohibited Person	30	36
Domestic Assault	N/A	24

Driving While Intoxicated	12	24
Assault (2 nd Degree)	36	60
Sexual Assault (1 st Degree)	120	168

Felony IIA	36	60
Felony III	N/A	24
Felony IIIA	N/A	24
Felony IV	N/A	18

*Safekeepers and consecutive sentences excluded from figures

Mandatory Minimum Sentences

Type of Offense	Mandatory Minimum Sentence Length
Class ID Felony	3 years
Class IC Felony	5 years
Habitual Criminal	10 years*
Certain Serious Sex Offenses such as Sexual Assault of a Child	15 or 25 years depending on the offense and whether it is a first or second offense

How are Mandatory Minimum Sentences Different?

1. Mandatory minimum sentences are not eligible for probation
2. No good time can be earned for the mandatory minimum portions of a sentence

Example: A person serving a 10- to 20-year sentence with a 5-year mandatory minimum must serve 5 years before earning any good time. They would be parole-eligible at 7.5 years and would have mandatory release at 12.5 years.*

*This example has been simplified and does not account for the potential to earn certain additional time credits for avoiding infractions

Admissions With Mandatory Minimums Have More Than Doubled

Percentage of Admissions with Mandatory Minimum Sentences, 2011 - 2020

Large Variation in Use of Mandatory Minimums Within Counties

Percentage of Mandatory Minimum Sentences of All Sentences by County, 2020

Length of Mandatory Minimum Sentences is Unchanged Since 2013

Consecutive Sentences Overview

- Consecutive sentences are required if the convicted individual is convicted of a **Deadly Weapon Offense**
- These offenses include:
 - Using a deadly weapon to commit a felony*
 - Possessing a deadly weapon while committing a felony**
- In any other situation in which a person is sentenced for multiple offenses at once, it is up to the judge's discretion whether to run the sentences consecutively or concurrently

*If the weapon is a firearm, it is a Class IC felony; if the weapon is not a firearm, it is a Class II felony

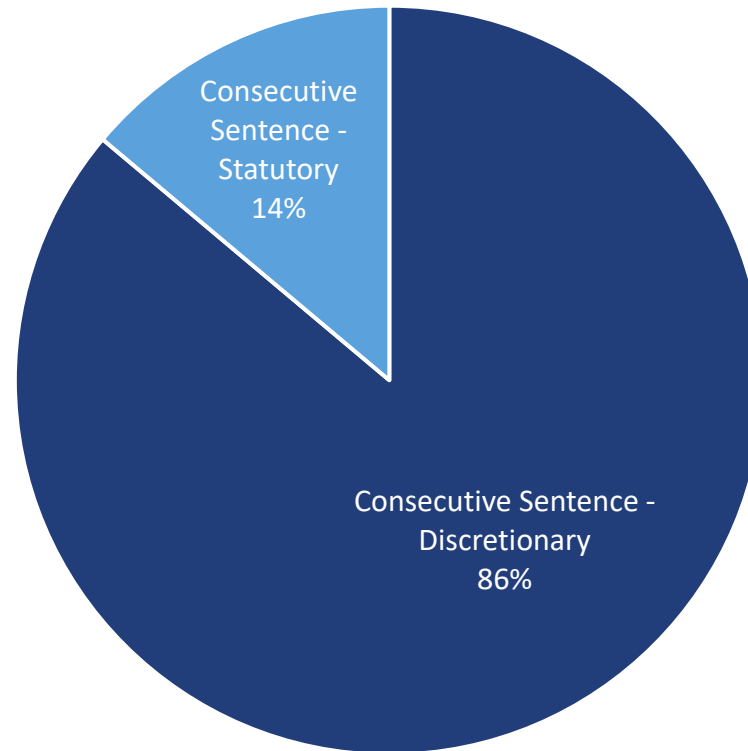

**If the weapon is a firearm, it is a Class II felony; if the weapon is not a firearm, it is a Class III felony

Large Increase in the Proportion of Sentences with Multiple Convictions

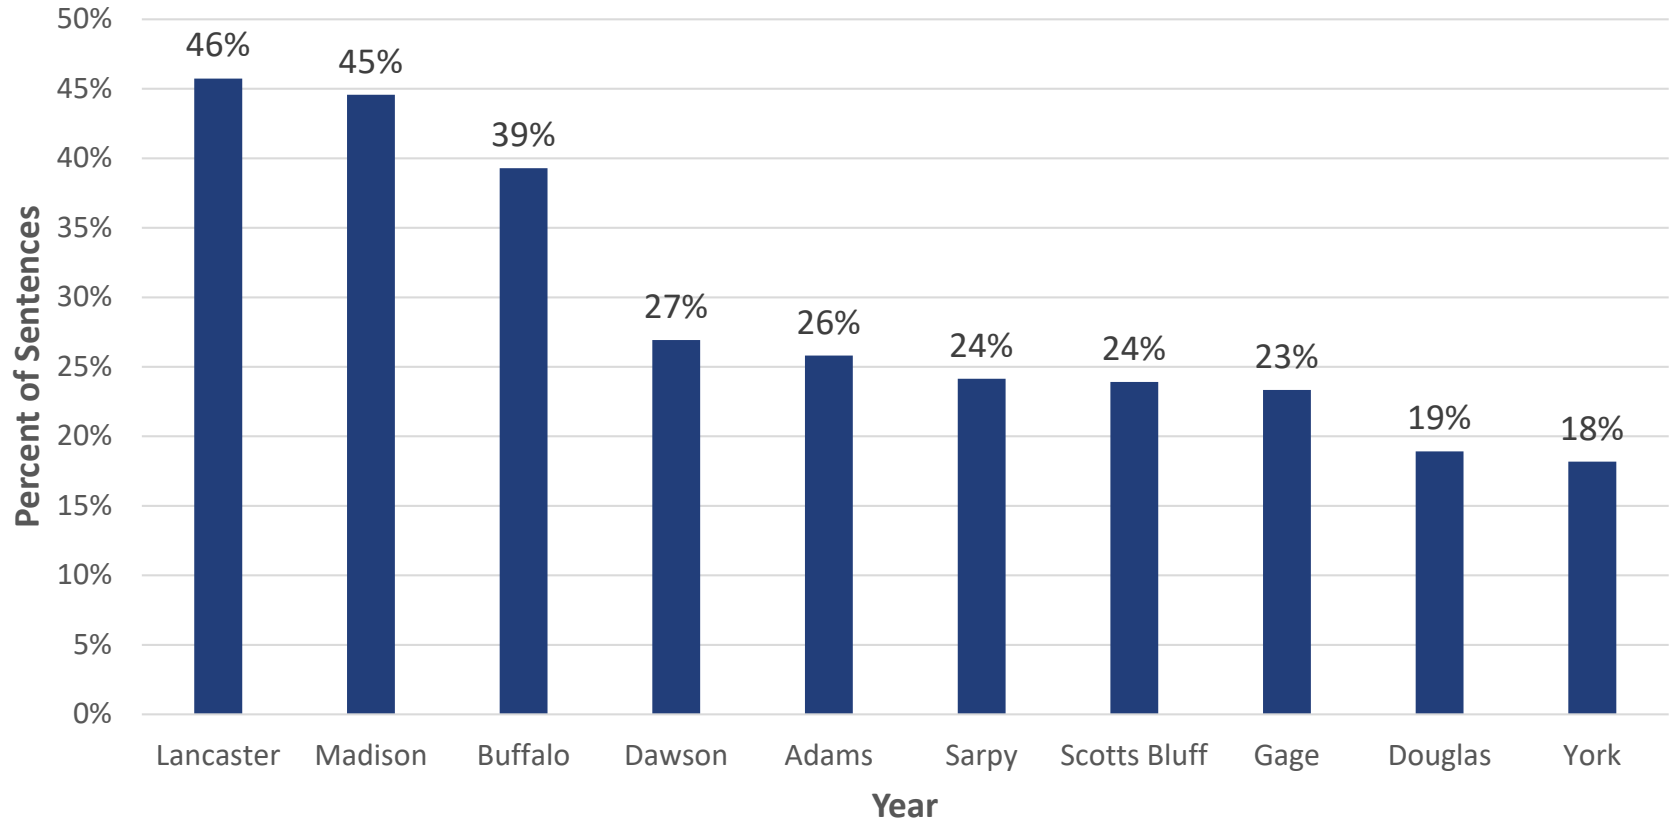

86% of Consecutive Sentences Were Discretionary

- Felony IIIA and Felony IV offense classes, which account for more than half of admissions, are most likely to have consecutive sentences
